sheets

Centralised high-security office shredder with
EASY-SWITCH and ECC - Electronic Capacity Control.

← 26 cm →

Level P-7 0.8 x 5 mm super micro cut

Sheet capacity*: 8-9 | 7-8

* A4 paper 70 g/m² | 80 g/m²

Technical specifications

Volume	125 litres (cabinet)
	100 litres (shred bin)
Power	230 V / 50 Hz**
Motor capacity	1300 Watt single phase motor

** other voltages available

Dimensions	926 x 495 x 470 mm (H x W x D)
Weight	48 kg

Product characteristics

This high-security shredder with 0.8 x 5 mm micro cut works fast and safe. SPS – (Safety Protection System) package: patented, electronically controlled, transparent safety flap in the feed opening as additional safety element; EASY-SWITCH – intelligent control element indicating the operational status of the shredder with varying colour codes and back-lit symbols; automatic reverse and power cut-off (avoids paper jams); automatic stop if the shred bin is full; electronic door protection via a magnetic proximity switch; double motor protection against overheating; ZERO ENERGY standby mode: Complete, automatic disconnection from power supply after 30 minutes. Automatic start / stop via a photo cell in the feed opening. ECC – Electronic Capacity Control: patented indication of the used sheet capacity during shredding process. High-quality cutting shafts from special hardened steel. Automatic oil injection on the cutting shafts during shredding operation for a consistently high shred performance. Powerful 1300 Watt single phase motor for continuous operation. Sturdy "Twin Drive System" with fully closed gear box housing. High-quality wooden cabinet with a cabinet volume of 125 litres. Movable on castors. Environmentally-friendly shred bin with 100 litres volume for the shreds (no disposable shred bags required).

EBA 2026-2 CCC

Features

SOLID STEEL CUTTING SHAFTS

Robust and durable: high-quality cutting shafts from special hardened steel.

EASY-SWITCH

Ease of operation: intelligent multifunction switch element with integrated optical signals indicating the operational status. Additional "emergency switch" function.

ECC – ELECTRONIC CAPACITY CONTROL

This electronic feature indicates the used sheet capacity during shredding process to avoid paper jams.

CONVENIENT SHRED BIN

The environmentally-friendly shred bin can be removed easily and cleanly from the cabinet. The bin can be used with or without disposable shred bag.

ELECTRONIC OIL INJECTION

The automatic oil injection system lubricates the cutting shafts when shredding and guarantees a constantly high shred performance.

FIRST-CLASS COMPONENTS

Quality in every detail: cabinet with adjustable metal hinges and attractively designed swivel castors.
